

LOCKDOWN LANDSCAPES

MAPPING MEMORIES

WORKSHOP 4 RESOURCE PACK

This resource pack is aimed to support discussion and reminiscing during the workshop. Feel free to show these digitally on a screen or as printouts; either black and white or in colour. You are also very welcome to use your own related images and sources. There are recommended points throughout the workshop plan where these resources could be introduced, but they can be used in any way that suits your group.

Conversation prompt questions

These can be handed out to members of the group:

What have you chosen and why were you drawn to it?

What can you see (in an image)?

Have you visited somewhere like this before?

Our project is about our experiences during lockdown, did you go outside at all?

Where did you spend lockdown?

Conversation prompt questions

These can be handed out to members of the group:

**Where might these places
(in an image) be located or how
do you feel looking at
these places?**

**If you were there, what
would you see, smell,
touch, hear and taste?**

**If an object is chosen,
how does it feel to hold it?**

**Where / what time do you
think it has come from?**
